

Cavendish Square LIFTED school arts project, day two

On day two of the Cavendish Square LIFTED school arts project in association with Plascon, Grade 7 Learners from Bishops and Rustenburg worked alongside one another to create highly individual artworks.

Great fun was had by all with various life skills elements built into the programme. The children benefited from having the guidance of top local 'green' artists.

The artworks are part of a series created by learners at local schools and can be viewed on the lower ground level of Cavendish Square until mid May.
