

Weylandts opens fossil-themed store in Ballito

Furniture and homeware store Weylandts opened a new branch at the Ballito Lifestyle Centre in Durban. The Ballito store is themed around the concept of Living Fossils; each Weylandts store's theme is unique to the area in which the stores are located.

The store is modelled after the layered textures of coastal shorelines that have been shaped by the breaking of waves that leave behind exposed coral, petrified wood, footprints of ancient creatures preserved in stone, and boulders eroded by thousands of years of water.
