

Entries now open for the Nigeria Technology Awards 2015

The first Nigeria Technology Awards (N.i.T.A) has opened for free entry and nomination to the general public. The awards recognise and reward technology entrepreneurs, innovators, academicians, inventors and policy makers (Government) in Nigeria.

The objective of the awards is to promote and commend the excellent achievements to which Nigeria technology professionals and organisations contribute towards building a sustainable economy using technology, the awards also aim to encourage local practitioners to develop innovative and creative technology solutions, which will uplift the image of Nigeria both locally and internationally.
