

# National Geographic quick request: African/South African time travel films/TV etc?

I'm working on a short piece for National Geographic's website comparing time travel devices in various countries movies, but haven't found any examples from Africa. Can you help?

I'm working on a short piece for the National Geographic Magazine website that will be comparing time travel devices that appear in different countries films / tv shows / etc, and I have yet to locate an example from South Africa (or from anywhere in Africa for that matter).

The SFSA [Science Fiction & Fantasy South Africa - [www.sfsa.org.za](http://www.sfsa.org.za)] suggested this forum might be able to help me identify a time travel film, show, comic, or other format from South Africa that deals with time travel. I'm most interested in time travel that uses a device (e.g. the Tardis, or Back to the Future's DeLorean) rather than mystical or unexplained time travel, but either one would be of interest.

Unfortunately I only have a couple hours until I file, so please let me know if you can help fill this gap.

Thanks,
