

Mr Price's share price jump

Mr Price has had a share price jump of 11% after it said interim earnings grew by up to 25%.

The company is expected to report on 20 November 2017 that its basic and headline earnings per share for the 26 weeks to 30 September 2017 grew between 20% and 25%.

Mr Price focuses on selling for cash, which seems to have given it an edge in the retail environment.
