

Emirates leads safe travel ranking

The Safe Travel Barometer has rated Emirates as the safest airline in the world in its response to the Covid-19 pandemic.

The airline has topped the ranks with a 'Safe Travel Score' of 4.4 out of 5.0 among 230+ airlines evaluated across the globe. The score is based on an independent audit of 26 health and safety parameters evaluating safety protocols, traveller convenience and service excellence announced by airlines.

The Safe Travel Barometer monitors global traveller health and safety measures, traveller convenience initiatives and overall traveller experience. The Safe Travel Score is an industry-first Covid-19 rating initiative, created in the wake of recovery from the pandemic.
