

The new, refurbished Audi RS4 Avant, RS 5 family

Audi has launched its facelifted RS 4 Avant and RS 5 model ranges (Sportback and Coupé). The new models feature a sporty interior with the new MMI touch operating system and a high-torque twin-turbo V6 engine with a power output of 331kW applies an impressive 600Nm of torque in both model ranges. On the exterior, the front section of the new RS 4 Avant, RS 5 Sportback and Coupé is completely redesigned, with a wider and flatter singleframe. Both models come standard with the RS sport exhaust system which creates a sporty sound experience.

The shape of the LED headlights has a new design and the matrix LED headlights feature darkened bezels, completing the revised appearance of the high-performance models.

Audi is currently delivering these models to select customers in South Africa as part of a pre-launch strategy ahead of the official retail launch from 1 April 2021. The Audi RS 4 Avant will cost R1,296,000, Audi RS 5 Coupé R1,394,500 and the Audi RS 5 Sportback will retail at R1,409,500.
