

Difference between Safta winners and Losers

What's the difference between SAFTA winners and losers?

The winners of SAFTA Awards feel that it's the most important win of their career and it will surely enhance their position in the industry, SAFTAS are great for the S.A. TV industry they say. The losers on the other hand will always tell you that these are the most USELESS and Boring awards that don't deserve any attention in the TV industry.
