

AAA School graduates class of 2015, offers testing for prospective students

The AAA School of Advertising (AAA) and the Association for Communication and Advertising (ACA), have welcomed the entry of 159 new graduates to the profession at a celebratory graduation event.

CEO of the ACA, Odette van der Haar, expressed satisfaction at the high level of transformation amongst the graduates and reported that all of last year's APEX bursary recipients had graduated - with honours.

The ACA is offering affordable psychometric testing and analysis to grade 11 and 12 scholars who are uncertain of their career options. Testing will take place on Saturday 16 April 2016 from 9-11am at the AAA campus in Randburg and will cost R570 per scholar. Those who are interested need to register via email to ceo@acasa.co.za or call the ACA on +27 (0) 11 781 2772/3/4.
