

Siendon expands phone distribution network across Ghana

British phone manufacturer, Siendon, is expanding its distribution network throughout Ghana. The company is engaging wholesalers and sub-dealers across both continents to distribute its leading range of quality smartphones, feature phones and tablets.

Siendon manufactures two smartphones, a 4.3" Phoenix P1 and a 3.5" Phoenix Lite L1 handset, a 1.8" Elite S1 feature phone and a 7" tablet called CyberPad. Siendon's mobile devices all boast dual SIM capabilities offering customers a choice of two networks on one handset. The phones are designed to work with any SIM card, on any network anywhere in the world. They are high spec and leaders in their class.
