

Shopping centre in Mauritius features SA retailers

Medine Property is developing the first shopping mall for the west coast of Mauritius in a joint venture with international partners Retail Africa and GIMCO.

"In a prominent position at the bustling Flic en Flac junction, the Cascavelle Shopping Mall will be an elegant, landmark lifestyle centre providing an appealing mix of retailers, including anchor tenant Pick n Pay. Next to the shopping mall, Medine Property has started the construction of the first phase of the Cascavelle Business Park consisting of 4000m² of office buildings," says Fabrice Orengo de Lamazière, a director of the International & Projects Division of Pam Golding Properties (PGP), marketers of the luxury villas at Akasha.

Wide range of facilities

"This means that residents will have convenient quick access to a wide range of facilities including a food court and high quality entertainment as the centre is expected to become the single stop for all the needs of shoppers in the western part of the island," he adds.

In addition to the shopping centre, residents will have access to a new 4-Star, 50-bedroom boutique hotel on the land adjacent to the Tamarina Beach Club and 18-hole championship golf course, which will further enhance the appeal of the lifestyle and facilities available.

Scheduled to open at the end of 2010, the hotel will include a restaurant and an infinity swimming pool with snack bar overlooking Tamarin Bay, as well as a spa with steam room, massage rooms and private swimming pool.
